Excavator_PCB_Mini-
Excavator_2024-04-05.zip

JLCPCB:

<https://jlcpcb.com/>

For this demonstration I'll be using
JLCPCB to source my circuit boards as

Arm Assembly ✓

Cab Lights and Rear Cover ✓

Test Drive ✓

Attachments/Upgrades ✓

I've had great success with them in the past, though feel free to use your own preferred manufacturer as the results will all be relatively identical.

1. Download the "MiniExcavator" Gerber files above.
2. Navigate to JLCPCB's website or your preferred manufacturer.
3. Proceed to JLCPCB's instant quote page.
4. Drag and drop the "MiniExcavator" PCB files into where it says "Add Gerber Files".
5. Once its uploaded select your desired surface finish and PCB color.
6. Save to cart and proceed to checkout as you normally would.
