

Lego Technic Jeep Bruiser Conversion RC

Dual Alternate of
42110 + 42099

Heavy Duty Variant

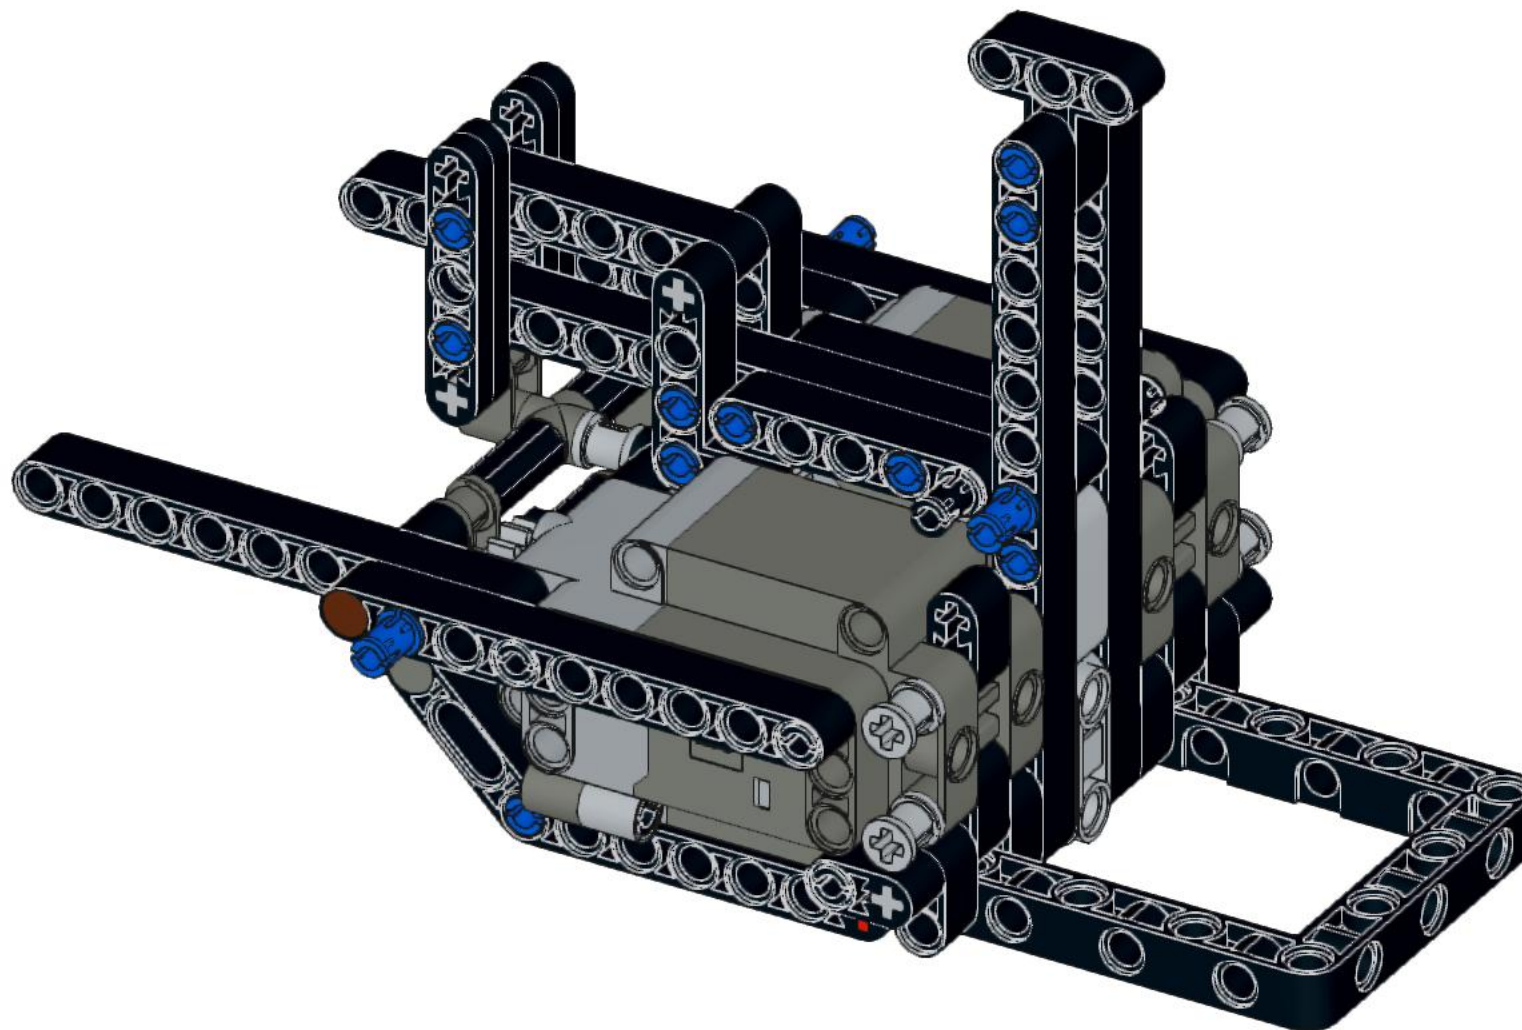

In this variant, the gearbox is bypassed for maximum efficiency, and the gear ratio can even be lowered compared to the base variant.

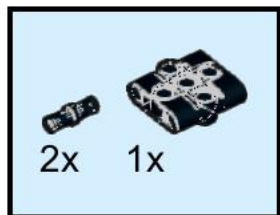

The gearbox itself is left in, and here it controls the speed of the fake engine. Neutral position leaves the fake engine turned off for less friction in the drive-train.

9

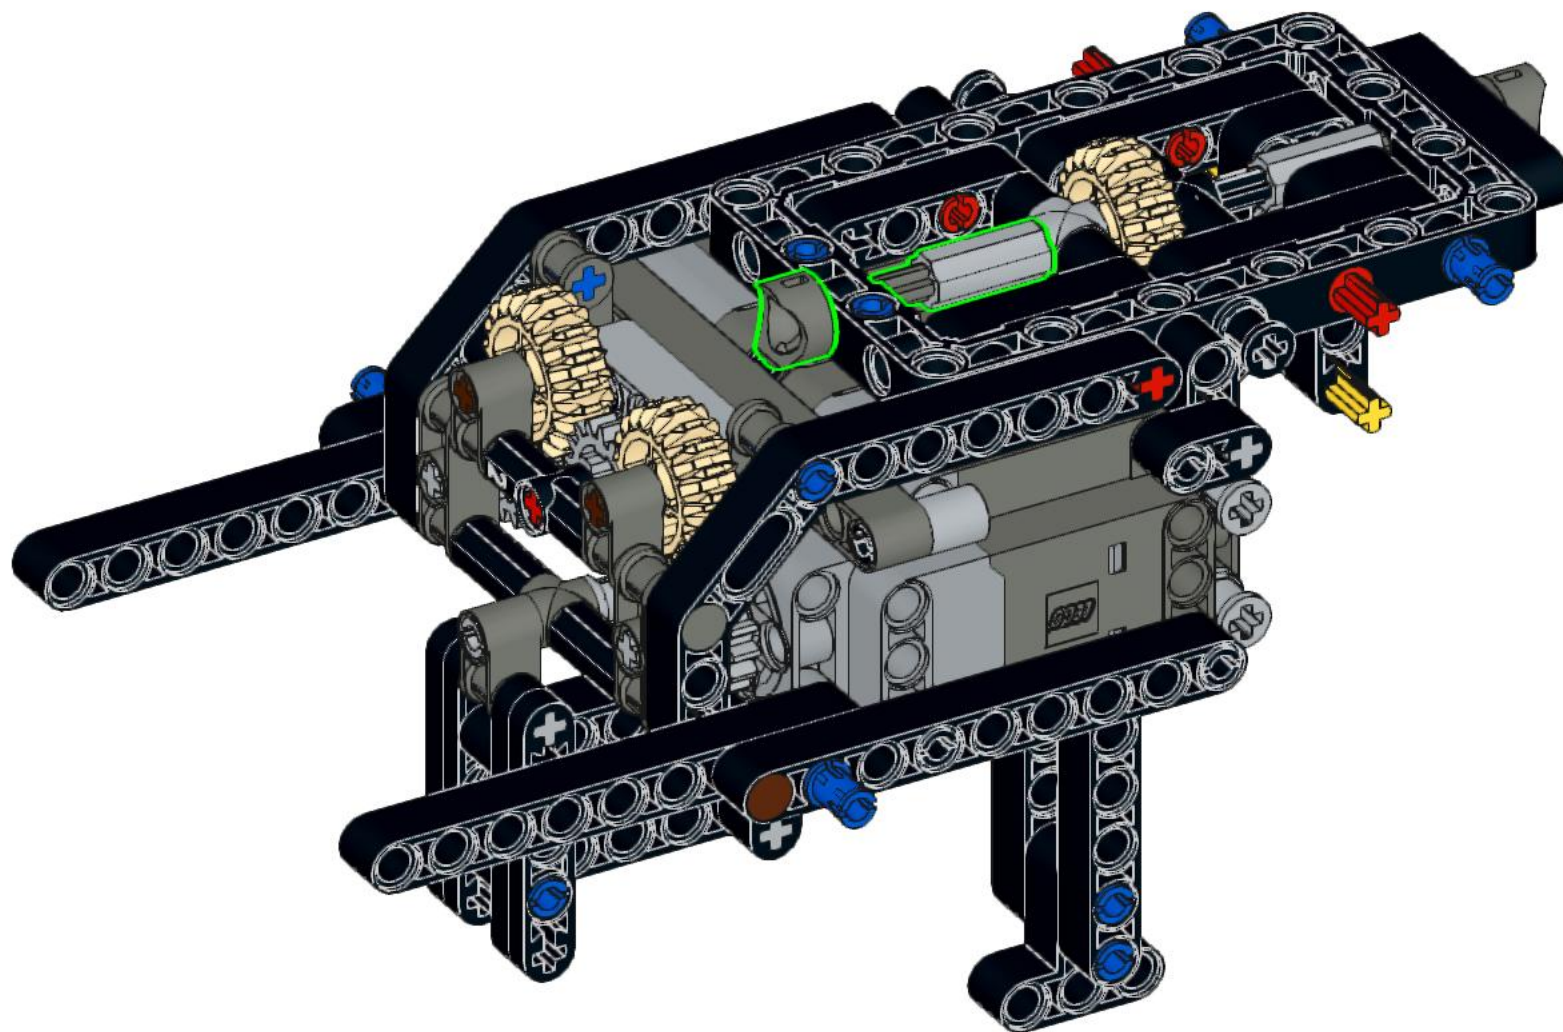

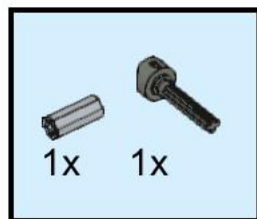

10

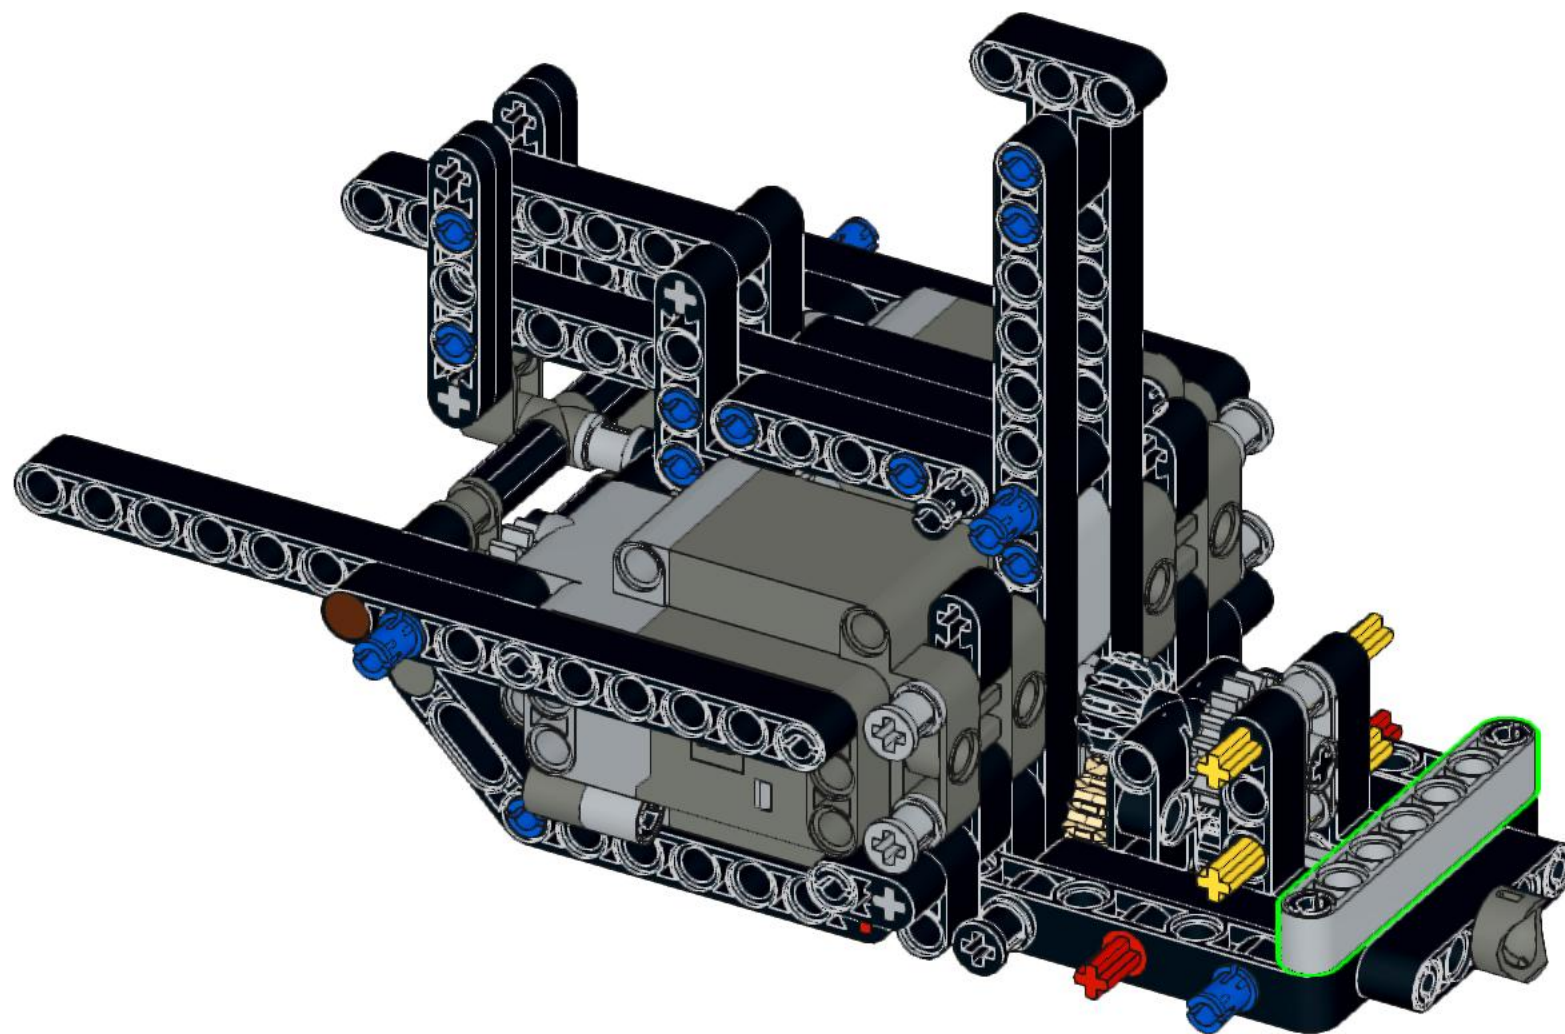

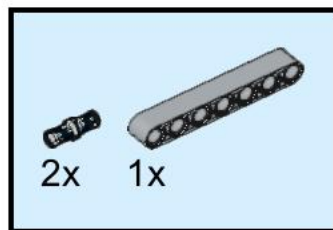

Optionally, a 16T grey gear can be used here for slightly faster gearing, instead of inserting the 20T tan gear
